The screenshot shows the Visual Studio Code interface with the following details:

- File Explorer:** Shows a project structure named "PROJECT 2" containing files: index.html, contactus.html, About Us.html, index.html, style.css, and img.
- Code Editor:** Displays the content of index.html. The code is a multi-slide image slider with a navigation bar at the bottom. It includes CSS classes for slides, numbers, and dots, and uses image URLs like img\sl14.jpg and img\sl15.jpg.
- Bottom Status Bar:** Shows "Screen Reader Optimized", "In 14, Col 10", "Spaces: 2", "UTF-8", "CRLF", "HTML", "Go Live", "23:19", and a date/time stamp "21-09-2021".

The screenshot shows the Visual Studio Code interface with the file 'About Us.html' open. The code is identical to the one in the previous screenshot, representing the footer section of the website. It includes a table with two rows. The first row contains a logo image and a company name. The second row contains contact information: a 'Quick Link' ul with three items (Home, About Us, Contact Us), followed by a copyright notice and social media links for WhatsApp and Facebook.

The screenshot shows the Visual Studio Code interface with the 'About Us.css' file open in the center editor tab. The file contains CSS code for a website, including styles for a header image, navigation links, and a footer. The code uses various CSS properties like 'display: grid;', 'font-size: 100%;', and 'flex-direction: column;'. A media query is present for screens up to 1140px. The left sidebar shows the project structure with files like 'contactus.css', 'style.css', and 'index.html'. The bottom status bar shows the file is 'Screen Reader Optimized' with line 1, column 1, tab size 4, and UTF-8 encoding.

The screenshot shows the Visual Studio Code interface with the title bar "About Us.css - Project 2 - Visual Studio Code". The left sidebar displays a project structure for "PROJECT 2" containing files like "contactus.css", "style.css", and "About Us.css". The main editor area shows the following CSS code:

```
426 .ali{  
427 | display:flex;

The screenshot shows the Visual Studio Code interface with the file `contactus.css` open. The code defines a search bar (#sear) with styling and three keyframe animations (@keyframes float, float1, and float2) for floating elements. The code is as follows:

```

177     }
178 }
179 @keyframes float{
180 0%{
181   transform:translatey(-100px);
182 }
183 100%{
184   transform: translatey(0px);
185 }
186 }
187 }
188 }
189 }
190 @keyframes float1{
191 0%{
192   transform: translateX(-150px);
193 }
194 100%{
195   transform: translateX(0px);
196 }
197 }
198 }
199 @keyframes float2{
200 0%{
201   transform: translateX(150px);
202 }
203 100%{
204   transform: translateX(0px);
205 }
206 }
207 }
208 }
209 #sear{
210   margin-top: 35px;
211   padding: 5px;
212   font-size: 17px;
213   border:2px solid gray;
214   border-radius:150px;
215 }

```

This screenshot shows the same Visual Studio Code session after a modification. The line `border-radius:150px;` has been changed to `border-radius:150px;`, where the second '1' is now bolded. The rest of the code remains the same as in the previous screenshot.
